

BMW M6  
Gran Coupé

Sheer  
Driving Pleasure

**THE NEW BMW M6 GRAN COUPÉ.**

**ONE  
MOMENT  
CHANGES  
EVERYTHING.**

**Spellbinding power:** a chance encounter with the new BMW M6 Gran Coupé. Its presence is signalled by a rich, sonorous sound. And then, suddenly, it appears – a monument to motor sport genes and timeless elegance – before disappearing around the next corner. It's a powerful moment that leaves a lasting impression. At full forward thrust, the powerful silhouette hugs the road. With its long wheelbase and stretched bonnet, this is the top athlete from BMW M, uniting dynamic design and technological highlights such as a roof made entirely of carbon fibre. No other vehicle quite combines luxurious comfort,

exceptional sportiness and leading-edge technology quite like the phenomenal BMW M6 Gran Coupé. The result is a driving experience that words alone cannot describe.

**An interior that exceeds all expectations.** Beneath its two-colour BMW Individual roofliner in leather and Alcantara, the new BMW M6 Gran Coupé sets the standard when it comes to exceptional equipment levels. Accents in black chrome catch the eye. The M leather steering wheel combines exclusive feel with perfect handling in any situation. In the optional multifunction seats, featuring BMW Individual Merino leather, the driver always stays cool even when the pulse is soaring. And the

optional high-end Surround Sound system from Bang & Olufsen floods the interior with crystal clear sound. As for the rear of the new BMW M6 Gran Coupé, this offers two people a uniquely comfortable experience. Unusually for a high performance coupé, a third rear passenger can also delight in the impressive ride.

**Accelerate the pulse.** Just one encounter with the extraordinarily potent BMW M flagship is enough to capture the imagination. The M TwinPower eight-cylinder petrol engine with 412kW (560hp)<sup>1</sup> and seven-speed M Double Clutch Drivelogic transmission accelerates the vehicle from 0 to 100km/h in just 4.2 seconds. In doing so, it establishes without question the peak power status of the BMW M6 Gran Coupé in the BMW M fleet. Technical innovations such as a new carbon diffuser, the Active M Differential for greater dynamics and efficiency and the optional M Carbon Ceramic Brake System further

underscore its superiority. The new BMW M6 Gran Coupé surges ahead and the distinctive rear profile, with its striking third brake light spanning the width of the roof, disappears into the distance. What remains? The feeling that a remarkable encounter has just taken place.

<sup>1</sup> See back page for further information on fuel consumption and CO<sub>2</sub> emissions.

	Fuel consumption urban l/100 km	Fuel consumption extra urban l/100 km	Fuel consumption combined <sup>1</sup> l/100 km	CO <sub>2</sub> emissions g/km
<b>BMW M6 Gran Coupé</b>	14.0	7.6	9.9	232

<sup>1</sup> Fuel consumption is determined according to the ECE driving cycle. This is made up of approximately one third urban and two thirds extra-urban driving (based on distance covered). CO<sub>2</sub> emissions are measured in addition to fuel consumption. Fuel consumption is determined with standard equipment fitted. Optional equipment may increase these values.

The models illustrated in this flyer show the specifications of vehicles produced by BMW AG for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in this brochure, may occur. For more precise information about country-specific vehicle versions, please contact your local BMW partner. Subject to change in design and equipment.
