BMW CONNECTED.
SUPPLEMENTARY OWNER’S HANDBOOK.
BMW Connected

About this Owner's Handbook

This Owner's Handbook describes all BMW Connected functions for all standard, national market and optional equipment offered. Therefore, it also describes functions that may not be available on some vehicles on the basis of the model, the equipment level, the production version or the national variant. The same applies to safety-related functions and systems.

Symbols used

"..." Identifies menus or options on the control display or iPhone for selecting functions.

Overview

Principle

BMW Connected integrates iPhone apps into your car.

- The apps are shown on the car's control display.
- You use the controller to interface with the apps.

Some of the functions on the iPhone can be used without a connection to the vehicle.

Please also refer to the information on BMW Connected in the Owner's Handbook for your vehicle.

Functions

The BMW Connected app includes the following functions.

- Web radio
- News
- Twitter
- Facebook
- Last Mile
- Calendar
- Wiki Local
- ECO PRO Analyser
- Other apps

Requirements

- A compatible iPhone: iPhone 3GS or higher
- Compatible software.
  iOS5 or higher recommended.
- BMW Connected app installed on the iPhone.
- Corresponding mobile phone contract.
  Extra charges may be incurred due to use of broadband data services.

Starting up

Connection options
▷ Apple USB lead
▷ Media snap-in adapter
Contact Service for more information about compatible adapters and other connection options.

Connecting

Connection by USB audio interface
1. Plug the Apple USB lead into the iPhone, see arrow 1.
2. Connect the USB plug to the car's USB audio interface, see arrow 2.

Connection by media snap-in adapter
The iPhone can also be connected by means of a media snap-in adapter, see the Owner's Handbook for your car.

Activating
Operation by means of the iPhone.
1. Connect the iPhone or dock it into the media snap-in adapter.
2. "BMW Connected"
Operation by means of iDrive.
3. "ConnectedDrive"
4. "BMW apps"
All the available BMW Connected functions are displayed.

Functions

Web radio

Principle
Enables you to receive web radio stations in the car.
Reception quality depends on the location of the vehicle and the broadband data connection available.

Station search: A-Z search
Searching for specific station names.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Search for station"
5. "A-Z search"
6. Select at least three letters. Enter letters, see the Owner's Handbook for the vehicle.
7. "OK"
8. Select station.

Station search: by location
Searching for stations in particular geographical locations.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Search for station"
5. "By location"
6. Select continent.
7. Select country.
8. Select state/city.
9. Select station from alphabetically arranged list.
Station search: by genre
Searching for stations featuring specific genres.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Search for station"
5. "By genre"
7. Select station.

Station search: in the local area
Search for stations in the vicinity of the vehicle's location.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Search for station"
5. "Local stations"
6. Select station.

Station search: BMW top stations
Search for the most popular web radio stations accessible through BMW Connected.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Search for station"
5. "BMW top stations"
6. Select station.

Latest results
Displaying the latest search results.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Recent results"
5. Select station.

Similar stations
View stations recommended on the basis of the current choice of web radio station.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "More stations like this"
5. Select station.

Saving favourites
50 stations can be saved as favourites.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. Select the desired station.
5. "Add to favourites"

Opening favourites
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Favourites"
5. Select favourite.

Deleting favourites
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. Select the desired station.
5. "Delete from favourites"

Station details
View additional information on the web radio station currently selected, e.g. station name, logo, address or phone number.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Station details"
**Sound quality**

Bit rate, format and overall quality can be selected.
1. "ConnectedDrive"
2. "BMW apps"
3. "Web radio"
4. "Audio quality"
5. Select sound quality.

**News**

**Principle**

Allows you to view news feeds.

Interface with the news feeds to which you have subscribed through the iPhone.

**Viewing news from subscribed news feed**

Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "News"
5. Select post.

**Adding an RSS feed**

Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "News"
5. "Edit"
6. Select the \( \uparrow \) symbol.
7. Enter the URL for the RSS feed.
8. Select RSS feed and confirm your choice.

**Selecting an RSS feed**

1. "ConnectedDrive"
2. "BMW apps"
3. "News"
4. "Source/RSS feed"
5. Select RSS feed.
6. Select post.

Scrolling is not possible while you are driving.

To switch between posts:
-  \( \uparrow \) Preceding post.
-  \( \downarrow \) Next post.

**Reading news out loud**

1. Select RSS feed.
2. Select post.
3. "Read out"

The following options are available while an entry is being read out:
-  \( \parallel \) "Pause"
  - Interrupt reading-out. Select again to restart reading-out.
-  \( \leftarrow \) Go back a section.
-  \( \rightarrow \) Skip section.
-  \( \uparrow \) Preceding post.
-  \( \downarrow \) Next post.

**Deleting an RSS feed**

Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "News"
5. "Edit"
6. Select RSS feed.
7. Select the \( \_\_\_\_ \) symbol.
8. Delete the RSS feed.
Twitter

Principle
Allows you to view Twitter posts and send pre-defined tweets via Twitter.

Requirements
▷ Active Twitter account.
▷ Twitter account details stored in global iPhone settings under Settings/Twitter.

Logging on
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Twitter"
5. "Select account"
6. Select active account.
Operation by means of iDrive.
7. Connect the iPhone or dock it into the media snap-in adapter.
8. "ConnectedDrive"
9. "BMW apps"
10. "Twitter"

Viewing main screen
The main screen shows the name and profile picture of the user and the two latest tweets.
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
The following functions can be selected:
▷ "Read out updates"
▷ "Post tweet"
▷ "Incoming tweets"
▷ "Favourites"
▷ "Trends"

Reading out latest tweets
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Read out updates"
The following options are available while an entry is being read out:
▷ "Pause"
   Interrupt reading-out. Select again to restart reading-out.
▷ Go back a section.
▷ Skip section.
▷ Previous tweet.
▷ Next tweet.

Viewing incoming tweets
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Incoming tweets"
5. Select tweet.
To switch between tweets:
▷ Previous tweet.
▷ Next tweet.

Viewing timeline
Viewing a user’s timeline.
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Incoming tweets" or "Favourites"
5. Select sender.
6. "Timeline"

Setting favourite
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Incoming tweets"
5. Select tweet.
6. "Favourite this tweet"

**Viewing favourites**
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Favourites"

**Removing a favourite**
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Incoming tweets" or "Favourites"
5. Select tweet.
6. "Unfavourite this tweet"

**Sending a predefined tweet**
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Post tweet"
5. Select predefined tweet from list. Post templates can be created on the iPhone.
6. "Post tweet"
7. "OK"

**Retweeting**
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Incoming tweets" or "Favourites"
5. Select tweet.
6. "Retweet"
7. "Post tweet"
8. "OK"

**Viewing trends**
Shows globally or regionally popular Twitter topics.
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Trends"
5. Select desired topic.
   A list of matches showing tweets that relate to the topic is shown.
6. Select desired tweet.

**Limiting trend locality**
1. "ConnectedDrive"
2. "BMW apps"
3. "Twitter"
4. "Trends"
5. Select "Worldwide" or desired country from alphabetical list.

**Setting update interval**
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Twitter"
5. "Update interval"
6. Select interval.

**Facebook**

**Principle**
Allows you to view status updates, comments and events and send predefined posts via Facebook.

**Requirements**
▷ Active Facebook account.
▷ Permission for the BMW Connected app to access the user's profile data.
Logging on
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Facebook"
5. "Log in to Facebook"
6. Enter user name and password.
7. Complete confirmation.
Operation by means of iDrive.
8. Connect the iPhone or dock it into the media snap-in adapter.
9. "ConnectedDrive"
10. "BMW apps"
11. "Facebook"
This can also mean signing on in the Facebook app if it is installed on the iPhone. In this case you will have to sign out separately in the app.

Viewing main screen
The main screen shows the name and profile picture of the user and the two latest posts.
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
The following functions can be selected:
  ▶ "Read out updates"
  ▶ "Post"
  ▶ "News Feed"
  ▶ "Nearby"
  ▶ "Events"

Reading out latest posts
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "Read out updates"

The following options are available while an entry is being read out:
  ▶ "Pause"
  Interrupt reading-out. Select again to restart reading-out.
  ▶ "Previous post.
  ▶ "Next post.

Viewing news feed
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "News Feed"
5. Select post.
To switch between posts:
  ▶ "Previous post.
  ▶ "Next post.

Sending a predefined post
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "Post"
5. Select predefined post from list. Post templates can be created on the iPhone.
6. "Share"
7. "OK"

Liking/Unliking a post
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "News Feed" or "Nearby"
5. Select post.
6. "Like"
A link to the selected post is shown on your profile page.
Unlike
The link to the post is removed from your profile page.

Reading comments on a post
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "News Feed" or "Nearby"
5. Select post.
6. "Comments"
7. Select comment.

Viewing visits
Your own and your friends' most recent visits can be listed in timestamp order.
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "Nearby"
5. Select an entry to view details.

Viewing an event
Events can be listed in order of starting date.
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "Nearby"
5. Select an event to view details.

Transferring address to navigation system
Message must contain a place name. Route guidance is only available for places with exact co-ordinates.
1. "ConnectedDrive"
2. "BMW apps"
3. "Facebook"
4. "Nearby" or "Events"
5. Select the symbol.
6. "Start guidance"

Last Mile

Principle
Last Mile is for navigating when away from the vehicle. It enables you to transfer the car's navigation destinations and position data to the iPhone.

Use the map app on the iPhone to navigate your way to the navigation system's active destination and back to the car, for example if you have left the car parked at some distance from your intended destination.

Guidance on the iPhone from the vehicle can resume as soon as the data are transferred from the vehicle to Last Mile.

Requirements
▷ The navigation system's route guidance function is active in the car.

Transferring destination data to the iPhone
1. Activate the navigation system's route guidance function in the car.
2. Connect the iPhone or dock it into the media snap-in adapter.
3. "BMW Connected"
4. Unplug the iPhone or remove it from the media snap-in adapter.

The current data of the navigation destination and the vehicle's position are synchronised and are available on the iPhone.

Once the connection between vehicle and iPhone has been broken there is no further updating of the navigation destination data.

Starting route guidance
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Last Mile"
The display shows a map section overlaid with the elements described below.

- Blue dot: your location
- Blue arrow: location of the vehicle
- Flag: destination

Your final destination is shown, and one intermediate destination can be shown as well.

5. Select the destination.
6. Select the symbol.

The blue line is the route from your location to the selected destination.

**Viewing destination-related information**

Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Last Mile"
5. Select the symbol.

The list contains entries relating to the destinations and the vehicle’s current location.

6. Select an entry from the list.

Address information is shown, along with the distance from your current location.

For each entry in the list you can compose a note consisting of up to 160 characters.

**Deleting destination and vehicle-location data**

Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Last Mile"
5. Select the symbol.

6. Select the symbol.

- "Delete destinations" Deletes all destination data and vehicle-location data.
- "Delete notes" Deletes all notes.

**Calendar**

**Principle**

You can view and read out calendar entries from the iPhone in-car.

**Displaying the calendar**

1. "ConnectedDrive"
2. "BMW apps"
3. "Calendar"

Displays appointments for the current day.

**Selecting a calendar day**

1. "ConnectedDrive"
2. "BMW apps"
3. "Calendar"
4. Select the desired week.

Displays appointments for the selected week.

5. Select the required day or date.

To switch calendar months, choose between the following entries in the months view:

- "Previous month"
- "Next month"

**Displaying appointments**

1. Select the desired appointment.
2. Scroll through the appointment if necessary:

   - Turn controller.
   - Select the symbol.

**Reading out an appointment**

1. Select the desired appointment.
2. "Read out"
3.  ▶ Start reading out.
   The following options are available while an item is being read out:
   ▶ "Pause"
      Interrupt reading-out. Select again to restart reading-out.
   ▶ "To beginning"
      Read out appointment from the beginning.
   ▶ Go back a section.
   ▶ Skip section.
   ▶ To stop reading-out, tilt the controller to the left.

Managing contact data
Contact data saved on the iPhone can be viewed in the Control Display.
1. Select the symbol.
2. Using iDrive or iPhone to view contact or select a phone number:
   ▶ Select a contact to display the detailed view for it.
   ▶ Select a phone number to establish a connection directly.

Transferring address to navigation system
1. Select the desired appointment.
   Appointment must contain a place name.
2. Select the symbol.
3. A Google search is launched.
4. Depending on the accuracy of the place name entered, up to 20 search results may be displayed.
5. Select the desired address.
   ▶ "Start guidance"

Wiki Local
Principle
Enables you to view Wikipedia entries relating to the locality.
Wiki Local supplies information about structures of note, architecture, culture, museums and other sights.
Wiki Tourguide recommends Wikipedia articles of interest based on the current location of the vehicle and the direction of travel.

Opening Wiki Tourguide
1. "ConnectedDrive"
2. "BMW apps"
3. "Wiki Local"
4. "Wiki Tourguide"
   To switch between articles:
   ▶ Preceding article.
   ▶ Next article.

Selecting location for search
1. "ConnectedDrive"
2. "BMW apps"
3. "Wiki Local"
4. "Search location"
   ▶ "At current location": uses the current location of the vehicle.
   ▶ "At destination": uses a location from active route guidance.
   ▶ "At another location": opens the address entry function so that you can enter the search location of your choice.
5. "Start search"
   A hitlist for the current search appears on the screen.

Creating and deleting favourites
1. "ConnectedDrive"
2. "BMW apps"
3. "Wiki Local"
4. Call up the entry.
5. "Add to favourites" or "Remove from favourites"
Opening favourites
1. "ConnectedDrive"
2. "BMW apps"
3. "Wiki Local"
4. "Favourites"

Favourites can also be viewed and edited on the iPhone:
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Wiki Local"
5. "Favourites"

Last search result
1. "ConnectedDrive"
2. "BMW apps"
3. "Wiki Local"
4. "Last search results"

Last search results can also be viewed and edited on the iPhone:
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "Wiki Local"
5. "Last search results"

Entry view
Once you have selected an entry, the following functions are available:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>⌞</td>
<td>Preceding page.</td>
</tr>
<tr>
<td>✭</td>
<td>&quot;Read out&quot;</td>
</tr>
<tr>
<td>☺</td>
<td>&quot;Chapters&quot;</td>
</tr>
<tr>
<td>☹️</td>
<td>&quot;Start guidance&quot;</td>
</tr>
</tbody>
</table>

Reading out an entry
1. Select the desired entry.
2. ✭ "Read out"
The entry is read out loud.
The following options are available while an entry is being read out:
- ✴ "Pause"
  - Interrupt reading-out. Select again to restart reading-out.
- 🐢 "To beginning"
  - Read out entry from the beginning.
- ⬅️ Go back a section.
- ⬆️ Skip section.

ECO PRO Analyser

Principle
This ECO PRO function analyses how efficiently the driver accelerates, brakes and changes gear. A road graphic adapts dynamically to driving style. ECO PRO tips are also displayed. Stars are awarded for an economical style of driving. The personal high score lists the best drives.

Requirements
- Works only in vehicles fitted with the new-generation Professional navigation system, which is available on a model-specific basis from July 2012 onward. The function is not available in other vehicles.
- Active ECO PRO mode.
- To be able to make full use of the ECO PRO Analyser, your agreement to local storage of the driving style data on your iPhone is required.
Confirming data storage
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "BMW Apps"
4. "ECO PRO Analyser"
5. "Settings"
6. "Activate saving"

Activating ECO PRO Analyser
1. "ConnectedDrive"
2. "BMW apps"
3. "ECO PRO Analyser"
A trip analysis does not appear until you have driven a distance of at least 1 km.

Viewing high score
High score evaluation is possibly only if data storage is active.
1. "ConnectedDrive"
2. "ECO PRO Analyser"
3. "My high score"
The following details of the journey are shown:
>- Average consumption for this trip.
>- The four best drives in terms of average consumption.
High score evaluation is not stored until you have driven a distance of at least 5 km.

Other apps

Principle
Enables the use of other BMW-certified apps in the vehicle via ConnectedDrive. Those apps can be viewed and activated on the Control Display.

Requirements
>- App is installed on the iPhone, has been started at least once and, if required, configured.

Viewing apps
1. "ConnectedDrive"
2. "BMW apps"
3. "Further apps"
Available apps are listed in alphabetical order.

Switching between apps
1. "ConnectedDrive"
2. "BMW apps"
3. "Further apps"
4. Select app and confirm.
The selected app is started and the current app automatically deactivated.

BMW Apps ready
All BMW-certified apps available from the App Store can be viewed and directly installed on the iPhone.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "Information"
4. "BMW Apps ready"
5. Select app to view details and directly install it.
6. After installation, start app and configure as necessary.

Selecting the App Store
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "Information"
4. "BMW Apps ready"
5. "App Store"
6. Select country.
Help with problems

Malfunction
In the event of malfunctions or error messages, proceed as follows:
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. Reconnect the iPhone or dock it into the media snap-in adapter.
3. Restart the BMW Connected app.
If the problem persists, proceed as follows:
1. Switch off iPhone.
2. Switch on iPhone again.
3. Restart the BMW Connected app.
If the problem still persists, reset the iPhone. To do so, simultaneously press and hold the following buttons for at least ten seconds:
   ▶ Home
   ▶ Standby
If the problem still persists, initiate a self-diagnosis.

Self-diagnosis: carrying out
The self-diagnosis tests the connection between the car and the iPhone.
Operation by means of the iPhone.
1. Unplug the iPhone or remove it from the media snap-in adapter.
2. "BMW Connected"
3. "Information"
4. "Check connection"
5. "Self-diagnosis"
6. Reconnect the iPhone or dock it into the media snap-in adapter.

Self-diagnosis: result
▶ Successful connection: "Connection OK"
▶ No fault present: "OK"
▶ Fault present: self-diagnosis aborts.

Self-diagnosis: fault rectification
1. Select the symbol.
2. Follow the instructions as they appear.
If the problem persists:
▶ Complete the support form quoting the self-diagnosis test code on the BMW Connected support web page at: www.bmw.com/connectivity
▶ Contact BMW Service.

Self-diagnosis: connection failed
1. Select the symbol.
2. Follow the instructions as they appear.
If the problem persists:
▶ Complete the support form quoting the self-diagnosis test code on the BMW Connected support web page at: www.bmw.com/connectivity
▶ Contact BMW Service.

If the iPhone has been restarted
Try unplugging and reconnecting the iPhone or removing it from and redocking it in the media snap-in adapter in order to use the BMW Connected app.

BMW Connected app is closed
The BMW Connected app is closed in the following situations:
▶ If an incoming call is received. The BMW Connected app is restarted after the phone call is finished. There may be delays in the process.

Self-diagnosis: connection failed
1. Select the symbol.
2. Follow the instructions as they appear.
If the problem persists:
▶ Complete the support form quoting the self-diagnosis test code on the BMW Connected support web page at: www.bmw.com/connectivity
▶ Contact BMW Service.

If the iPhone has been restarted
Try unplugging and reconnecting the iPhone or removing it from and redocking it in the media snap-in adapter in order to use the BMW Connected app.

BMW Connected app is closed
The BMW Connected app is closed in the following situations:
▶ If an incoming call is received. The BMW Connected app is restarted after the phone call is finished. There may be delays in the process.
