

Welcome to MyBMW

BMW Group understands that use of your information requires your trust. BMW Group is committed to the highest standards of data privacy and will only use your information for clearly described purposes and in accordance with your data protection rights.

Last updated: 2022.11

Who is responsible for data processing?

Bayerische Motoren Werke Aktiengesellschaft, Petuelring 130, 80788 Munich, with its registered office in Munich, is entered in the commercial register of the Local Court [Amtsgericht] of Munich under HRB 42243 (hereinafter referred to as "BMW"). The Connected service (referred to as "the service") is a family of applications and services. The service includes MyBMW for iOS, MyBMW for Android (the "app"), BMW Connected applications running in the vehicle, and integrations with Apple and, the Amazon Alexa and Google Assistant (integrated devices). BMW provides the service to you and is responsible for related data processing activities.

What information may be collected about you and how is it used?

The service is designed to be a highly personalized mobility companion. In order to provide the personalized features of the service, BMW collects, stores and processes your personal data in compliance with applicable law.

The data collected for the service are processed for the following purposes:

A. Contracting to use the service

In order to use the service, the following data categories are processed:

- account login (BMW Group Login)
- contact data (last name, first name, address, email address, etc.)

Login with BMW Group ID:

To use the Service, you must register in the app / portal. When you register, you will receive an online customer account that gives you access to other BMW Group portals and offers. In order to provide you the BMW Group login service, your data is passed on to the BMW Group company that acts as a provider of the applications in use by you. Storage of the data from your customer account is handled by BMW and is separate from any other (even potentially identical) data about your person that may be available to BMW Group.

Delete

Your account login used to access your MyBMW service is also your login for your other BMW services. You can delete your account at any time. For details, please go to the section on "Your data privacy rights"

B. To provide the personalized features of the service

The service collects and processes the following data to provide the user's personalized features of the service:

Service data

- user profile (preferences, language, app id, Top driver number, etc.)
- user feedback (service rating, comment, problem description, etc)
- position and movement data (time, position, speed, etc.)
- destination (position, street address, destination name, etc.)
- messages (message, recipient contact information, etc.)
- vehicle profile (vehicle identification number; VIN, license plate, etc.)
- BMW retailer or service center (preference, etc)
- Image (3d image around the vehicle)
- environmental information (temperature, rain, etc.)
- anonymized application analytics (click events, app launch events, etc)

Vehicle data

- vehicle id (links your specific vehicle to the service)
- vehicle maintenance data (next service, oil level, brake wear, etc.)
- vehicle status data (mileage, battery voltage, fuel levels, door and window status, etc.)
- vehicle data (remote event, date/time, etc)

A complete list of the features, a detailed description for each and the data used can be found at service descriptions.

Delete

You can delete your data at any time in the app. There are several ways to delete your data:

- For some data types, you can delete the individual data elements; such as a single destination
- You can delete all application data by clicking the "clear all application data" in the privacy menu in the app. This deletes all the data generated and collected by the app but your BMW login, vehicle data and other non-application data will not be deleted.
- To unlink your vehicle from the service log into the ConnectedDrive portal www.bmw-connecteddrive.com. You can perform this through the app as well.
- To exercise your right to be forgotten contact BMW via the contact details at the bottom of this page.

Consent

When you launch the app for the first time, you will be prompted for your consent for a few specific data types. You will be prompted for your consent before the service begins collecting the data. If you decline, the features which require that data will be disabled.

Specific consent is requested for:

- position (geolocation)
- receiving notifications
- access to your camera and/or photos
- marketing
- profiling

You consent to allow the service to collect and process all other described data types when you accept this privacy notice.

If you have given express consent to the processing of your personal data for marketing and/or market research purposes or for profiling purposes, the same personal data will be processed for such purposes and for sending you offers from the BMW Group (within the limits of the specific consent form and by party).

If you have separately agreed to promotional communication by email, you will also receive promotional communication in the Message Centre of the app as part of your use of the app. You can change your settings for promotional communication at any time via the settings in the app, your My BMW account or via Customer Care, or you can revoke your consent completely.

Opt-out of data collection

You have the right to opt out at any time.

.. If you wish to continue using the app but opt-out of data collection for specific the data types

- You can turn off location, calendar access, contacts access, camera access, photos access and notification in the settings menu in the app.

.. to opt-out of any other data collection the App will no longer function

- Delete your application data using the "Clear all application data" button in the privacy menu
- Delete the app from your phone

C. Assurance of product quality and development of new products

Beyond the mere provision of services, the data collected under Section B. is also processed for the purposes of quality assurance and for the development of new products and services by BMW. These processing activities serve the legitimate interests of BMW in our effort to bring you the highest quality products and services as well as new and innovative offerings.

In order to protect your privacy, the data used to improve our products and create new services is stored in a form that it is not directly traceable to you or your vehicle.

The health of the service is constantly monitored. If the monitoring detects critical system fault some data collected under Section B. may be reviewed be to help determine the cause in order to correct the problem. Access to this information is strictly limited and is only used when needed to resolve a critical issue.

D. Fulfillment of the sales, service and administrative processes of BMW, the national sales company and authorized dealers (GDPR 6(1)(f))

In order to optimize the customer experience and collaboration with BMW distributors continuously, we create evaluations and reports based on information from agreements and we share these evaluations and reports with the applicable BMW distributors. These evaluations are predominantly used for introducing appropriate measures (e.g. training courses for sales personnel) to improve the request and sales process. We will create the aforementioned reports only in an aggregated and anonymized form; this means that the recipients of the reports will be unable to draw any conclusions about you personally.

BMW AG is a company within BMW Group. In part, we process your data in order to make the administration of the various companies within BMW Group as efficient and successful as possible. One of the areas this affects is common group accounting in accordance with international accounting regulations for companies (such as the International Financial Reporting Standards (IFRS)).

E. Compliance with legal obligations to which BMW is subject

BMW will also process personal data if there is a legal obligation to do so. This may be the case if we need to contact you because your vehicle is affected by a recall or technical action.

Collected data is also processed in the course of ensuring the operation of IT systems, such as:

- backup and recovery of data processed in IT systems,
- logging and monitoring of transactions to verify proper functioning of IT systems,
- detection and prevention of unauthorized access to personal data,
- Incident and problem management for troubleshooting IT systems.

Collected data is also processed in the context of internal compliance management, in which we check, whether you have been sufficiently advised in the context of a contract and that the dealer has complied with all legal obligations.

BMW is subject to a variety of other legal obligations. In order to comply with these obligations, we process your data to the extent required and, if necessary, pass these on to the responsible authorities within the framework of statutory reporting obligations

F. Data transfer to selected third parties

The service includes features that utilize selected third parties in order to provide the relevant functionality. In most cases, the data is provided in anonymized form such as the request to the map provider to retrieve the map image for your location. In other cases, the feature may require the transfer of your personal information to the third party such as when you schedule a service appointment for your vehicle or send a message to a friend. Features that send your personal data to a third party will inform you of the transmission or prompt for your consent before sending the data.

Details for all third party transmissions are described in the respective service descriptions.

How do we collect your personal data?

BMW collects your personal information in the following conditions:

- The app is actively running, either in the foreground or background, on your mobile device
- You actively use the features of the app
- If you access the service via an integrated device the service will collect anonymized usage analytics
- When you use the service to perform ConnectedDrive functions such as executing a remote command (e.g. locking your doors) or viewing your vehicle status the data is generated by your vehicle. All ConnectedDrive data is collected and processed under your ConnectedDrive agreement and is detailed under the ConnectedDrive privacy policy included separately in the app.

How do we keep your information safe?

We secure your data using state-of-the-art technology. By way of example, the following security measures are used to protect your personal data against misuse or any other form of unauthorized processing:

- access to personal data is restricted to only a limited number of authorized persons for specified purposes;
- data is transferred only in encrypted form;
- data is stored in encrypted form;
- the IT systems used for the processing of the data are technically isolated from other systems to prevent unauthorized access, e.g. by hacking;
- access to the systems is monitored permanently in order to detect and avert misuse at an early stage.

How long do we store your data?

We only store your personal data for as long as is required for the respective purpose. If data is processed for multiple purposes, they are automatically erased, or stored in a form that is not directly traceable to you, as soon as the last specified purpose has been fulfilled.

The service retains the data for a varying period depending on the data type. The details for each data type are described in the service descriptions. Retention periods fall into the following categories:

- Data retained only until the process, request or action is completed (example: you send a message to a friend to notify them of your estimated arrival time – message is sent and then deleted)
- Data retained for a defined period (example: vehicle data is retained for 30 days, position data is retained for 1 year)
- Data retained until you delete it or if you stop using the service for more than 5 years (example: your user profile, destinations you manually entered)

Who will we share your data with and how will we protect it?

BMW is a global company. Your personal data is processed preferably within the EU by BMW employees, national sales companies, authorized dealers and service providers engaged by us.

If data are processed in countries outside the EU, BMW ensures that your personal data are processed in accordance with applicable privacy requirements, including suitable technical and organizational measures.

How you see and change your privacy preferences

You can review and change your privacy settings at any time in the app under the settings menu. Depending on the vehicle model, you can also access a privacy menu in your vehicle in which you can also change the vehicle related settings.

Your data privacy rights, your right to complain and contacting BMW

Right to withdraw Consent:

If you wish to withdraw your consent allowing the service to process your data, in the app tap the "Delete all application data" option in the "Privacy and Terms" menu and then delete the app from your smartphone.

Settings to change your data collection permissions service data types are available in the app under the "Settings" menu.

Right to access your information:

The data collected and generated by the service can be viewed in either your ConnectedDrive portal or the app itself. The data is shown in the app as part of the display for the feature that collects or uses it.

You can also view your account information and vehicle data at any time in the ConnectedDrive portal.

Right to correction:

You can correct most of the data processed by the Connected service directly in the app or on the ConnectedDrive portal.
