After completing our Advance 1 course, drivers can take their skills to another level with this high-performance course designed to test their ability to the fullest.

The aim of the program is to enhance each participant's driving ability by developing attitudes and skills through a structured sequence of courses. Each course takes participants through an increasingly challenging mix of low and high speed driving exercises, that help them respond effectively in emergency situations and become progressively more confident, safe and enthusiastic drivers.

BMW Driving Experience offers a range of courses which are conducted at Australia's leading facilities, including the world renowned Phillip Island Grand Prix Circuit. All BMW Driving Experience courses are supervised by highly-trained instructors.
