Dioctyltin dilaurate (typically for production of polymers, coating products, adhesives and sealants, coatings and inks)
Bis(4-chlorophenyl)sulfone (typically for production of polymers and rubbers)
Medium-chain chlorinated paraffins (typically as flame retardant and as additive in plastics and resins)
Aluminosilicate Refractory Ceramic Fibres (typically for heat insulation)
Tris(4-nonylphenyl, branched and linear) phosphite, TNPP (typically for production of polymers and rubbers)
Octamethylcyclotetrasiloxane (typically as feedstock for the production of silicone polymers)
N,N-Dimethylacetamide (typically as process solvent in polymer production)
Dicyclohexyl phthalate (typically as plasticizer for production of polymers)
Decamethylcyclopentasiloxane (typically as feedstock for the production of silicone polymers)
Silicic acid, lead salt (typically for production of glass and ceramics)
Lead monoxide, lead oxide (typically as constituent of electronic components)

**Lead monoxide, lead oxide (typically as constituent of electronic components)**

- Body (Air guides, Windshield and rear window)
- Electronic (Control units, modules, DC/DC-converter, Front lamp cluster, Head-up Display, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components, Potential equalization)
- Entertainment and Navigation (Audio-releasing device, Radio, amplifier, CD-player, Video and v-by-nets)
- Heating and air conditioning (Air conditioner, Auxiliary heater with control elements, Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Automatic transmission, Control Hybrid/E-drive, Coated tank with drive, Electronic switching or control devices, Exhaust gas recirculation, Fast tank with filter pipe, Housing ventilation, Injection nozzles and tubing, Injection control unit, Injection nozzles and tubing, Injection control unit, Injection nozzles and tubing, Injection control unit, Thermostat and engine mounted cooling lines, Thermolsis on electrical drive components, Variable track valve)

**Ethanol, 1-propanol (typically for production of glass and ceramics)**

- Body (Glass guide, Windshield and rear window)
- Electronic (Cleaners, Control system, head of vehicle)
- Entertainment and Navigation (Audio-releasing device, Radio, amplifier, CD-player, Video and v-by-nets)
- Heating and air conditioning (Air conditioner, Auxiliary heater with control elements, Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Automatic transmission, Control Hybrid/E-drive, Coated tank with drive, Electronic switching or control devices, Exhaust gas recirculation, Fast tank with filter pipe, Housing ventilation, Injection nozzles and tubing, Injection control unit, Injection nozzles and tubing, Injection control unit, Injection nozzles and tubing, Injection control unit, Thermostat and engine mounted cooling lines, Thermolsis on electrical drive components, Variable track valve)

**Boric acid (typically for production of glass and ceramics and as flame resistant)**

- Electronic (Potential equalization, Switch, sensor)

**Cubitalis (devicer typically for car body treatment)**

- Exterior (Door for wheeled vehicles)

**Dodecylbenzyletherthiosulfinate (typically as feedstock for the production of silicone polymers)**

- Electronic (Auxiliary cable, Control units, modules, High-voltage accessory control systems, High-voltage battery individual components, Potential equalization)
- Powertrain (Control Hybrid/E-drive, E-drive, Engine using harness, Exhaust controls, Expansion tank, Ignition coil)

**Dicyclopentyl phthalate (typically as plasticizer for production of polymers)**

- Interior (Mirror, sun visor, armrest, tray)
- Powertrain (Control Hybrid/E-drive, E-drive, Engine using harness, Exhaust controls, Expansion tank, Ignition coil)

**Indenocyclo-2-thiones (typically for production of polymers and rubbers)**

- Body (Bumper, rear)

**N,N-Dimethylurethane (typically as primers solvent in polymer production)**

- Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components)
- Heating and air conditioning (Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Carbon-carbon ventilation, Coated tank with drive, Engine using harness, Expansion tank, Ignition coil)

**Tin-2-ethylhexyl stearate (branched and linear) phthalate, TNP (typically for production of polymers and rubbers)**

- Electronic (DC/DC-converter)

**2,2,4,4-tetramethyl-3,5,5-trimethylcyclohexene-1-carboxylic acid (typically as flame resistant and as additive in plastics and resins)**

- Entertainment and Navigation (Radio, amplifier, CD-player)
- Heating and air conditioning (Auxiliary heater with control elements)
- Powertrain (Automatic transmission, Control Hybrid/E-drive, Coated tank with drive, Exhaust gas recirculation, Fast tank with filter pipe, Engine using harness, Expansion tank, Ignition coil)

**Aluminosilicate Refractory Ceramic Fibres (typically for heat insulation)**

- Powertrain (Control Hybrid/E-drive, E-drive, Engine using harness, Exhaust controls, Expansion tank, Ignition coil)

**Melamine (typically used in coatings, varnish, and polymers)**

- Body (Bumper, rear)

**Medium-chain fluorinated paraffins (typically as flame resistant and as additive in plastics, varnish, rubber, textile)**

- Powertrain (Fuel tank with filter pipe)

**Glycidyl ether of diether of diphenyl ether phthalate oxide (typically as additive in plastic applications, for adhesives, sealants, coatings and inks)**

- Electronic (Switch, sensor)

**Tin-2-ethylhexyl stearate (branched and linear) phthalate, TNP (typically for production of polymers and rubbers)**

- Electronic (DC/DC-converter)

**Indenocyclo-2-thiones (typically for production of polymers and rubbers)**

- Body (Bumper, rear)

**N,N-Dimethylurethane (typically as primers solvent in polymer production)**

- Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components)
- Heating and air conditioning (Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Carbon-carbon ventilation, Coated tank with drive, Engine using harness, Expansion tank, Ignition coil)

**Tin-2-ethylhexyl stearate (branched and linear) phthalate, TNP (typically for production of polymers and rubbers)**

- Electronic (DC/DC-converter)

**Indenocyclo-2-thiones (typically for production of polymers and rubbers)**

- Body (Bumper, rear)

**N,N-Dimethylurethane (typically as primers solvent in polymer production)**

- Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components)
- Heating and air conditioning (Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Carbon-carbon ventilation, Coated tank with drive, Engine using harness, Expansion tank, Ignition coil)

**Tin-2-ethylhexyl stearate (branched and linear) phthalate, TNP (typically for production of polymers and rubbers)**

- Electronic (DC/DC-converter)

**Indenocyclo-2-thiones (typically for production of polymers and rubbers)**

- Body (Bumper, rear)

**N,N-Dimethylurethane (typically as primers solvent in polymer production)**

- Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components)
- Heating and air conditioning (Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Carbon-carbon ventilation, Coated tank with drive, Engine using harness, Expansion tank, Ignition coil)

**Tin-2-ethylhexyl stearate (branched and linear) phthalate, TNP (typically for production of polymers and rubbers)**

- Electronic (DC/DC-converter)

**Indenocyclo-2-thiones (typically for production of polymers and rubbers)**

- Body (Bumper, rear)

**N,N-Dimethylurethane (typically as primers solvent in polymer production)**

- Electronic (Auxiliary cable, High voltage charging electronics, High-voltage accessory control systems, High-voltage battery individual components)
- Heating and air conditioning (Heater with control, seat heating)
- Interior (Mirrors, sun visors, armrests, trays)
- Powertrain (Carbon-carbon ventilation, Coated tank with drive, Engine using harness, Expansion tank, Ignition coil)
